**Subject : Reallocation of power from various sources.**

Sir,

This is in continuation to our letter no. F.DTL/207/Mgr(EA)/13-14/703 dated 18.03.2014 on the subject.

DERC vide its order dated 23.07.2014 has announced the tariff schedule for 2014-15 applicable from 17.07.2014. Para 4.57 of the Tariff Order of BYPL talks about the reallocation of power from certain power plants. The excerpts of the tariff order in this regard are reproduced hereunder:-

4.57 The Commission is of the view that the average billing rate of BYPL is lower compared to BRPL and TPDDL due to different consumer mix in the area of the distribution of each DISCOM. Presently, the power purchase agreement assigned by the Commission vide letter dated February 27, 2014 is based on the sale of electricity to retail consumers in the area of respective DISCOMs. To offset the gap between power purchase cost and revenue of BYPL it is felt necessary that power purchase cost should be reduced for BYPL or the consumer mix needs to be modified. As the consumer mix cannot be altered, therefore, the Commission has decided to divert costly power from BYPL to BRPL and cheaper power from BRPL to BYPL. The summary of reassigned power stations for BYPL is as below:

Sr. No	Station	Earlier allocation (MU)	Revised allocation (MU)	Remarks
1	Dadri -I	1086.28	488.82	55% of BYPL shifted to BRPL
2	Aravali Jhajjar	181.95	81.88	
3	Singrauli	277.64	541.68	55% of BRPL shifted to BYPL
4	Sasan UMPP	457.20	892.01	

Contd.....2

Based on the above, the allocation of various central sector stations has been revised by SLDC and enclosed as Annexure. The scheduling software has also been updated based on the revised allocation and proposed to be implemented from 01.08.2014 for scheduling purposes.

Thanking you

Yours faithfully

Encl. As above

**(SUSHEEL GUPTA)**
